

Project Design Phase
Problem – Solution Fit Template

Date	08 July 2026
Team ID	xxxxx
Project Name	Cosmetics Insights: Navigating Cosmetics Trends and Consumer Insights with Tableau
Maximum Marks	2 Marks

Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- ☐ Solve complex problems in a way that fits the state of your customers.
- ☐ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ☐ Sharpen your communication and marketing strategy with the right triggers and messaging.
- ☐ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ☐ **Understand the existing situation in order to improve it for your target group.**

Template:

1. CUSTOMER SEGMENT(S) CS Who is your customer? • Cosmetics Brand Managers & Marketing Directors looking for reliable market expansion paths. • Product Development & R&D Teams seeking validation for new cosmetic formulations. • Market Research Analysts tasked with monitoring competitor beauty trends.	6. CUSTOMER CONSTRAINTS CC What constraints prevent them from taking action? • Time Limitations: Hyper-fast trend lifecycles require instant analysis before saturation. • Technical Skill Gap: Brand managers lack complex coding/SQL skills to query databases. • Budget Caps: High subscription costs for traditional beauty intelligence syndicates.	5. AVAILABLE SOLUTIONS AS Which solutions are available when they face the problem? • Static Research Reports: Expensive, lengthy PDFs (Mintel/Nielsen) that rapidly become outdated. • Manual Social Scraping: Scrolling TikTok/Instagram manually; highly subjective and prone to bias. • Basic Spreadsheets: Disjointed Excel rows failing to show visual regional trends.
2. JOBS-TO-BE-DONE / PROBLEMS J&P Which jobs-to-be-done or problems do you address? • Identifying emerging globally/regionally trending ingredients (e.g., clean beauty, adaptogens). • Synthesizing multi-channel consumer sentiments into clear visual metrics for product strategy. • Mitigating financial risks associated with poorly-timed cosmetic line launches.	9. PROBLEM ROOT CAUSE RC What is the real reason that this problem exists? • The cosmetic market is heavily driven by viral social media momentum ("TikTok trends"), making historic market data cycles obsolete. Data remains siloed across disparate sources (retail sales vs. social engagement metrics).	7. BEHAVIOUR BE What does your customer do to address the problem? • Cross-referencing influencer posts manually with internal inventory levels. • Assembling ad-hoc PowerPoint decks based on intuition and surface-level web searches. • Relying heavily on historical product performance rather than real-time data indicators.
3. TRIGGERS TR What triggers customers to seek a solution? • A sudden, unpredicted dip in a flagship product line's quarterly	10. YOUR SOLUTION SL How does your proposition match their environment? • An Interactive Tableau Dashboard Suite that maps cosmetics trends and consumer insights dynamically. Integrates multi-channel metrics (social sentiment data, volume peaks, ingredient growth indexes) into an accessible executive view, eliminating technical gaps.	8. CHANNELS OF BEHAVIOUR CH Where does customer development occur? 8.1 ONLINE CHANNELS • Beauty Industry Publications (CosmeticsDesign, Glossy). • E-commerce Competitor Stores & Sentiment Analysis Platforms. 8.2 OFFLINE CHANNELS • International Beauty Trade Shows (e.g., Cosmoprof). • Physical retail audits & internal multi-department strategic alignment syncs.
4. EMOTIONS: BEFORE / AFTER EM How do they feel before vs. after a solution? • Before: Overwhelmed by disjointed data; anxious about missing vital market shifts. • After: Empowered by interactive visual clarity; confident in data-driven pitches.
